HYDRATION STATION

MORE THAN JUST WATER

Every H2O Hydration Station, comes fitted with a FLUUX Filtration System, as standard, removing micro-plastics and bacteria. Along with an extra UV filter you can be confident you are drinking the purest water possible.

YOUR CHOICE

As standard, the H2O comes as a water dispenser with the option to add a flavour kit.

Standard Water Only:

- 1 x Rinse
- 1 x Bottle fill
- 1 x Bottle Fill
- 1 x Bottle Fill

With Flavour Kit

- 1 x Water or Rinse
- 3 x Flavours
- or
- 1 x Water
- 1 x Rinse
- 2 X Flavours*

STANDARD WATER ONLY DECALS

CONTACTLESS PAYMENT

Supports free-vend and most cashless payment systems.

Shown with standard graphics

ADVERTISE

12" media screen shows rolling videos or still images with crystal clear stereo sound. Can be used to display prices and drink volumes.

Preloaded with stock media. Make extra revenue - sell advertising space and add your own media.

REFILL

Built in bottle sensor - use your own reusable bottle.

Combined with the 50ml rinse function you can keep coming back for more.

Rinse and repeat

HOVER SELECT

The contact-less H2O includes Hover Select technology as standard.

HOVER SELECT Flavoured or water, safely select your drinks from a distance.

*STANDARD FLAVOUR DECALS

Included in part of flavour kit

TRIPLE FILTRATION

FLUUX Dual Filtration System Eliminates Bacteria, THM's & Micro Plastics more than 0.1 microns.

UV Filter removes micro organisms and bacteria.

The manufacture and disposal of water bottles has a devastating impact on the environment. This can generate more than 600 times more CO2 than tap water.

CONTACTLESS ZERO PLASTIC WASTE

AN ECO SOLUTION BETTER THAN THE REST

LOW CARBON FOOTPRINT

- Made in the UK
- Direct Delivery via Westomatic Fleet
- Eliminates plastic waste
- No Waste Disposal
- Less Restocking
- Less Maintenance

FLASH CHILLED

Don't waste energy!

Drinks are flash chilled upon dispense.

The standard level of Micro Plastics found in drinking water is at .4 Microns. **The FLUUX Filtration System eliminates Micro plastics more than 0.1 Microns.**

BANK THE H2O NEXT TO THE ELEVATE, STOCKED WITH REUSABLE BOTTLES TO OFFER THE ULTIMATE ZERO WASTE REFILL STATION!
